IMPORTANT SCHOOL GUIDELINES

Dear Parents

Greetings! Children are influenced by everything around them — their peers, their teachers — but it's undeniable that their parents have one of the biggest roles to play in shaping who they are and what they will become.

Educating students is our priority but we also prepare our children to become responsible citizens that we are proud of and on whom the society can rely on. It is our duty to guide them about even the appropriate attire they are supposed to wear when going somewhere, applying for a job, or visiting someone outside of the home setting.

Keeping the above in mind, please note the following important school guidelines which must be adhered with. These are important for the safety and security of your ward as well as to conform to the standard of Dwarka International School.

- All students must adhere to the school uniform policy. Self-discipline is the first step in the path of success and it is important that children learn the process of abiding by the rules of an institution at an early age.
- Parents are requested to check the students' uniform, including socks and shoes before they leave home for school.
- All students must wear their I-card, failing which they may be denied to enter the school premise.

We seek the support of parents in providing the right guidance to the students.

Regards

Shalini Agarwal
Principal
