

Animal tissues  
10 Questions

NAME : \_\_\_\_\_

CLASS : \_\_\_\_\_

DATE : \_\_\_\_\_

1. What is the correct order of organization

A

cell-tissue-organs-organ systems-  
organism

B

tissues-cells-organs-organ systems-  
organism

C

organism-cells-tissues-organ systems-  
organism

D

tissues-cells-organs-organ systems-  
organism

2. What is blood classified as?

A

organ

B

tissue

C

organ system

3. Which type of tissue is the most similar between plants and animals?

A

ground tissue

B

protective tissue

C

connective tissue

4. This name means that there are multiple layers of cells

A

Stratified

B

Simple

C

Columnar

D

Pseudostratified

5. These cells are small and flat

A

Pseudostratified

B

Squamous

C

Cuboidal

D

Columnar

6. Which of the following is NOT a function of epithelial tissues?

- |  |   |
|--|---|
| <input type="checkbox"/> A contracting to produce movement | <input type="checkbox"/> B producing glandular secretions |
| <input type="checkbox"/> C covering exposed surfaces       | <input type="checkbox"/> D lining internal passageways    |

7. Which is NOT a shape of epithelial cells?

- |                                     |                                     |
|-------------------------------------|-------------------------------------|
| <input type="checkbox"/> A circular | <input type="checkbox"/> B cuboidal |
| <input type="checkbox"/> C squamous | <input type="checkbox"/> D columnar |

8. Which of the following is NOT true about epithelial tissue?

- |  |  |
|--|--|
| <input type="checkbox"/> A one side rests on a basement membrane | <input type="checkbox"/> B it forms glandular tissue           |
| <input type="checkbox"/> C it has a good blood supply            | <input type="checkbox"/> D it forms continuous cellular sheets |

9.  Name the tissue

- |  |   |
|--|---|
| <input type="checkbox"/> A Simple columnar     | <input type="checkbox"/> B Pseudostratified |
| <input type="checkbox"/> C Stratified Squamous | <input type="checkbox"/> D Transitional     |

10.  Name the type of epithelium

- |  |  |
|--|--|
| <input type="checkbox"/> A stratified squamous | <input type="checkbox"/> B simple columnar |
| <input type="checkbox"/> C simple cuboidal     | <input type="checkbox"/> D simple squamous |
