GUNJAN

Although It has been close to 8 years since I graduated from DIS, I can remember it as vividly as if it was yesterday. I made great friends, had fun and learned a lot.

I joined the school in 9th grade.

DIS laid a strong foundation which I could leverage to learn various skills and hone my personality.

Full of exhilarating opportunities such as debates, theatre, anchoring in events, in hindsight school days were one of the greatest days of my life.

I got the prestigious opportunity to be the Head Girl, twice which was a big boost to my leadership skills and confidence.

We all agree that high school is a roller coaster. I remember how terrifying boards were, and I was very anxious about my future. But my teachers were always there when I needed them, academically and morally.

My message to all my juniors would be to explore all the avenues the school has to offer and never shy away from participating in academic and co-curricular activities.
